PROJECTS

Blog App
(ReactJs)

Brief Summary
- A blogging platform is a service used to manage and publish content on the internet in the form of blog.It allows the user to create, organize and publish written and visual content online in a blog.

git link : https://shuchi698.github.io/blog-app-frontend/

Web Application for Tourism
(Web Tech)

Brief Summary
- This web based application maintains a centralized repository of all related information. The system allows one to easily access the relevant information and make necessary travel arrangements. Users can decide about places they want to visit and make bookings online for travel and accommodation. And also for further queries regarding the related things can be solved through the online chat facility provided by the web application.

Pac-man
(ReactJs)

Brief Summary
- Pac-Man is an action maze chase video game; the player controls the eponymous character through an enclosed maze. The objective of the game is to eat all of the dots placed in the maze while avoiding four colored ghosts
